- get parts from component inventory bins- accurate count is important
- select appropriate shipper box for the order
- pack, strap and tape the shipment
- weight + measure the carton
- calculate the shipping charge (residential or business address + ground or express)
- process the credit card (manually re-enter all the customer and product data)
- add the cost we pay bank for card processing or for Paypal
- print out the credit card receipt
- enter customer data (Ship to + Bill to) into Quickbooks
- enter order details into Quickbooks (Correct part numbers, quantity, price)
- print shipping label
- print invoice
- take printed shipping label and attach to customer's carton
- place box on dolly with other outgoing Fedex orders
- attach the credit card receipt to the invoice

- pull up customer email and send .pdf copy of invoice
- save email message in appropriate product invoice folder
- if any of the customer's credit card information is incorrect, we need more time to correct

\* Previous orders do not qualify for parts waivers
